

Partial Notification / Publication of Presence Information

SIMPLE WG

IETF #63, August 4, 2005

Aki Niemi

Nokia Research Center

aki.niemi@nokia.com

Summary of Changes

- Clarifications to notifier and watcher behavior
- More details to behavior in publish generation/processing
 - Align with latest pidf-diff format
- Better examples
- Updated references
- Other minor editorial changes

Open Issues

- None identified
- Need review
 - Push onto WGLC stack
- Otherwise, we feel this is done
 - Depends on patch-ops progress
