Resolution: Deferred beyond MRCPv2. This is a great suggestion but considered too much to add into the current specification. Interested parties are encouraged to develop and submit extensions to MRCPv2 and/or other specifications for relevant exception content.

There are a few emails that have suggested the creation of special exception notification events. Two are <http://www1.ietf.org/mail-archive/web/speechsc/current/msg01812.html> and <http://www1.ietf.org/mail-archive/web/speechsc/current/msg01611.html>, point 2.
